December 20, 2016

Dear Patient,

This is to inform you that I have accepted the call to serve our active military and Veterans at Fort Campbell, Kentucky; the assignment is up to one year. I will be gone from my practice after January 31, 2017. I have made arrangements with Independent Lung Associates, a physician group specializing in Pulmonary, Critical Care, and Sleep Medicine, to care for our patients in the office and in the hospital. It is your choice to follow up with them or to see another specialist.

Your primary care provider should already have a copy of your record. However, at your request, we can forward your medical record to any medical provider.

I would like to thank you for trusting your care to me. If we can be of assistance during this time of transition, please do not hesitate to call my office.

Sincerely,

A handwritten signature in blue ink, appearing to read "Moataz Toban".

Moataz Toban, MD
